Neptune Core Drilling Machine

'Neptune' is a self contained hydraulically driven diamond drilling trailer for taking core samples in roads or airport runways with concrete or asphalt surfaces. Rugged, compact, manouverable coring trailer which out performs all manually fed or direct engine driven machines.

10 hours of normal working is possible with the 30 litres fuel tank & 500 litre water tank.

Drill depths of 650mm as standard with extension bars for deeper drilling.

Diesel or Petrol engine

'Proportional' feed system allows fast & safe coring even through **steel re-inforcement bars**.

'Automatic' Soft Start Drilling feature ideal for in-experienced operators.

'Two-function' Emergency Stop prevents any run-on of the drill whilst the engine is stopping.

Power take-off facility for driving a hydraulic road breaker or hydraulic tamper.

Unladen weight 980 Kgs, laden weight 1480 Kgs.

103 dB Maximum noise level.

Can be towed in the UK using a commercial vehicle with a minimum GLW of +1500 Kgs.
